The Irish Charolais Cattle Society is delighted to be working in collaboration with Dovea Genetics, to identify the best possible Charolais genetics suitable for use in the Dairy herd. The aim of the partnership is to make available easy calving, short gestation Charolais sires, with good terminal attributes. Cattanview Supreme is the result of this working partnership. By working together we hope to make available more exciting Charolais sires suitable for use in the Dairy herd in the future.

TRIPLE RANGE

# TRIPLE RANGE

A compact calving season with low empty rates is key to achieving a successful grass-based system.

The Dovea Genetics Triple Range aids you attain this target within your breeding season.

The Triple Range allows you to target all cows or cows within your herd with reduced fertility & optimizes their chances of conception & being retained in the herd.

The Triple Range is a mix of semen from 3 elite dairy beef sires, giving you a high value beef animal with the added benefit of increased conception rates.

Since its launch in 2022, we have received exceptional

feedback both in Ireland & through our distributors in Europe with high farmer satisfaction throughout.
